#### The News.

In dispatches of Saturday night and this forenoon, relating to peace, are dissolved into the stuff that dreams are made of by the afternoon telegrams, which state that all probabilities of such negotiations are uttorly groundless. As we stated a few days since, the near approach of peace is indicated only by the manifest weakness and exhausted condition of the so called Confederacy.

Peace will never come, and, we seriously believe, it is better that it should not come, so long as the rebel army under Lee holds Grant at arm's and. The fight must go on until the mgis of our national soverelenty waves in triumph over Richmond as it does to-day over Savannah, and until South Carolina humbles herself at the feet of the victorious Sherman.

#### Edward Everett and the French Mission.

Fifteen days before his death, Edward Everett wrote a letter to Mr. Bonner of the Ledger, in which, after mentioning some business matters, he said: "With respect to the French mission, it has been occasionally mentioned to me, never by me, except at this moment, in writing to you. Unless our ministers now abroad are recalled, it is not likely that Massachusetts, which has now three full ministers, will be allowed to have another Even if they should come home, there are other Massachusetts men who will do, ber of the State Senate from Jefferson what I shall not, seek the place, by themselves or friends. Tur first decision of Chief Justice Chase, in the Supreme Court of the United States, was that West Virginia is legally a State. The decision was given on the question of placing the name of the State on the list when calling the docket.

The United States Senate, by a vote of 31 to 8, adopted the Resolution to terminate the Canadian Reciprocity Treaty. As the House had previously acted, the thing will be done; and nine-tenths of our people will rejoice therent.

On accepting the nomination for Covernor of Tennessee, Parson Brownlow spoke as follows:

"GENTLEMEN-I settle the controversy by assuring you that I will accept. [Applause.] I cannot be expected to do thing more, and I certainly ought to do no less than tender to you, as a Convention. my sincere and unfeigned thanks for the honor and distinction you have conferred upon me. New York, January 28.-Governor Halin, of La., had issued a proclamation, designating the 24th of February next as a holiday for recreation and festivity in honor of the memorable emancipation acts of the now free States of Misouri, Tennessee, and Maryland.

General Herron arrived in New Orleans on the 19th.

Late advices from Texas have been received. It was reported that the command- St. Louis correspondent gives the outlines ant at Matamoras had permitted rebel gangs to cross from Bowmansville and conscript Union refugees.

Several lady refugees from Galveston Soveral lady retugees from Galveston had arrived in New Orleans. They report suffering for fuel, and partitions and outhouses were being used for the purpose. There had been no blockade running at Galveston for a couple of weeks. In an interview under a flag of truce, the rebel Captain Scott, who spoke very despondingly, said he and many others had determined to join a corps which Maximilian is

#### FROM NEW YORK.

New York, Jan. 28.—Robert Cobb Kennedy, a near relation of Howell Cobb, is on trial by Court Martial here privately charged with being one of the hotel incendiaries. He is now being tried on only one of the charges against him, that of bo ing a rebel spy.

The Post's Washington special says a

fire occured in Wardport this morning but was soon extinguished with little damage. Seven million percussions shipped as ordinary freight from this part have been seized on suspicion that they were intended for the rebels.

New York, Jan. 28.-The bull clique who tossed gold up last night still controlod market this morning, but at the close there was a downward tendency, opening at 214 the price dwindled down to 215, The weather the past week has been the coldest of the season, this moraing the thormometer marked 5 degrees below

NEW YORK, January 30 .- The Herald's of a reported rebel operation west of the Mississippi of an extraordinary character. It is to the effect that Gen, Kirby Smith, commanding the rebel trans-Mississippi important transfer of his services he will have some difficulty in effecting it as the rebel troops of that region always a lawless semi-disorganized set of wild characters have become additionally demoralized since the death of old Sterling Price their favorite chief, and may resist this wholesale military colonization.

The Herald publishes the robel army raster, which it says it obtained from the most authentic source. The figures accompanying the organization show that the full strength of the rebels is only 168, 950 men of all arms, this is their fullest strength. The forces are scattered from the James river to the Red river, and from the Atlantic coast to the Indian Territories. It is shown very conclusively that the only army upon which the rebels can depend is the army of Northern Virginia. This s the only organization which the enemy ass deserving the name, and the only arny which we now have to overcome.

New York, Jan. 30 .- The Tribune has a leading article on a recognition intrigue. It says it has obtained a clue to European complot wherefrom the slave-holding rebels are comforting themselves with hopes of powerful and speedy aid to their sinking cause. Its outline is, at the early stage of the rebellion, Jeff. Davis sent Roman Catholic Bishop Lynch, of South Carolina, to Europe to search for sympathizers and allies, but to make Rome the focus of operations. It was not difficult for him to convince master spirits of European reaction and absolutism that the slave-holder's redog was very positive that his dog hadn't been away from home at all. But the the Times dated 15th, says Sherman's adBishop Lynch went further and assured Bishop Lynch went further and assured being the Times dated 15th, says Sherman's adexpansion and predominence throughout he hemisphere would be assured by the A considerable rebel force is at Ashepao triumph of the rebels. In deference to and rebel reinforcements have been sent these representations, a secret league of to Branchville to hold that place against the Roman Catholic powers of France. Spain and Austria, under the guidance of the Pope, has been formed, pledged to recognize the Confederacy after the 4th of next March, on the ground that it did not take part in the presidential election.

The Tribune also learns that the rebels anticipate a fresh assault on Hichmond, and in case they cannot hold it they will burn it to the ground, to show christen-dom that they had rather be exterminated than subjugated.

New York, Jan. 20.—The Times' Saannah correspondent of the 19th says the last of Sherman's army leaves Savannah to morrow. The 1st and 3d divisions of the 20th corps were at Pardeeville, S. C. when last heard from.

The Herald's Washington dispatch says that the Navy Department received a communication furnishing intelligence that a telegraph wire was discovered after ex-ploring Fort Fisker leading across Cape Fear River and about two miles into the rebel lines. There is but little doubt that the magazine was exploded by rebels.

All peace negotiations with Richmond are now very thoroughly exploded. Though negotiations are expected from other quarters, perhaps by proclamation of the Governors of Georgia and North Carolina. It is stated that it was a part of the object of Stanton's visit to Savannah to advise with Sherman, if the rebels should propose terms of peace, to hold himself in readiness on behalf of his government to accept. It is also stated the passportorder bas been reseinded, so far as applies to Canada, but will be continued as regards Nova Scotia.

Washington, January 30.—House— Johnson of Pa., moved that 33 or 30 per cent, respectively be added to the salaries of Congressmen and employees in civil Referred to Committee on Ways wad Means.

#### FROM CAIRO AND BELOW.

Cairo, January 28 .- A fire last night ourned nearly all the new wooden buildngs creeted on site of the fire last Septemer. The principal losers are John Check & Co., dry good merchants; Orwald & Co., millinery and fancy goods; Swain, grocery and Husher clothing store. Total loss \$50,000, mostly Insured in Eastern company's.

The steamer Relapse exploded her boiler at Johnsenville, Tennessee, yesterday morning, There was 160 persons on board, thirty-six were killed and missed and wounded. All gans of the 2th Ind. battery were lost. No farther particulars, Philadelphia, January 28.—The Ecc-ning Telegraph professes to have late Richmoud papers containing the following: "A large raiding party is moving up the Chowan river in the direction of Weldon. An official dispatch from Gen. Hardce says that no movement had been made by Sherman up either bank of the Savannah river. another rumor says that Sherman is moving on Augusta via Blakesville." It is retience with which you have endured your

the capture of the steamer Tallahassee at New Inlet on the 18th.

#### EROM RICHMOND.

Washington special says the mission of Blair was not, as has been generally supposed, an entire fuilure, but it resulted in fully disclosing that many of the rebel chiefs are desirous of peace and are willing to submit to much more reasonable terms than their newspaper organs would lead us to suppose, but that all are so jealous and watchful of each other that no one dares to make an advance for fear of being made the victim of some desperate and relentless faction.

Another correspondent says that we need not be surprised to soon see peace in proclamations of the Governors of Georgia and North Carolina.

wo members of the House, who dined thicle to peace and the restoration of the Injury. This was told on the floor of the Iouse on Saturday. Bets were immediately offered by peace democrats that Mr Blair had never uttered a word of what was imputed to him.

#### FROM WASHINGTON.

Washington, January 28 .- The result d Mr. Bluir's volunteer visits to Richmond s this: That Jefferson Davis is willing to waive formalities and send to Washington or receive from them commissioners to treat for peace upon the basis of separa-tion. The President of the United States, on the other hand, is willing to give a licaring to any person of influence may come from the States in rebellion, with or without Davis' authority, to treat for peace on the basis of submission to the Union. Of the above facts there is no doubt.

Gentleman—I have had in the one of your Washing Machines since May last. We have tried other inventions, but they have invariably proved worthless, after a low weeks use. Yours is the only invention that has stood a saisfactory test in my lamily. It works admirably, and is a great labor say us machine; wille in point of economy it has no equal. It has more than saved its cost already in the distributed wear of clothing, as compared with any ther process of washing with which I am familiar. No family can well afford to be without one. Yours truly.

OFFICE OF THE PHENIX MU FFICE OF THE L'HENIX MUTUAL LIFE INSURANCE COMPANY, Hurtford,
Conn., Jan. 2d, 1865.

HENRY ROORS, ESQ., DEAR SEE:—At a meeting of the
Directors of this Company held at this Office this day,
the following yete was unsulmounly passed:

"That a dividend of 50 per cent. of Annual premimas be declared to holders of poll-for issued by the
Phornix Manual Life Insurance Company in 1861, and
that said dividend be paid on next or fourth annual
genewals of said polcies."

A dividend of 50 per cent, is seidem declared by Mutual Companies, and still more seidem we believe at
their first making of dividends; but our prosperity has
been so marked, more particularly in the year just onded, that the Directors of this Company felt themselves
fally justified in passing the above vote.

It is the wish of the Directors that our members
should feel that they are as liberally treated as they
could be by any other safe Company, and they hape
that on the recurrence of another new year, they will
find themselves in a position to warrant chelr voting a
dividend equally large. Yours cety Truly,

E. FESS! NDEN, President.

Mad' son Correspondence. (From our Special Correspondent.)

Madison, Jan. 28, 1805. Editors Gazette:-The vacancy in the Ninth Circuit, caused by the resignation of Judge Orton, has been filled by the appointment of Hon. Alvah Stewart, of Portage. Judging from the attendance of prominent lawyers and their friends from Watertown, and other places in the Circuit, there was no lack of candidates, and for the past day or two it has not been uncommon to see some of these passing in the labby before the Gavernor's door like anxious and patient sentinels awaiting the eall to better and more certain rations. But it appears that the sound qualities of Julgo Stewart and the number and weight of his friends, have secured for him the coveted office, which from all accounts, has been given to a lawyer able and well qualified to fill it.

Col. Malloy and some of his officers left

there on the morning of the 27th inst., to, rejoin the 17th regiment either at Savaunalt or under the works of Charleston. They excert a number of recruits and men belonging to the regiment, and they all in the success of the good cause than ever hefore. They started last November with the intention of reaching their regiment in time to make the glorious march with Sherman and not arriving in time to do this, did the next best thing, in taking part in of Hood; Col. Malloy commanding a brigade and part of the time two brigades. will emback for Savanuah, this being the quickest route. Perhaps the most hopeful sign of the speedy suppression of the rebelour veteran soldiers and officers now depart for the battle fields of the country. Their cause and devotion has been endorsof by a vast majority of their intelligent and independent fellow-citizens and cheered by this wholesome stimulus they go to. find a staggering enemy weakened on every side by defeat, desection and division. In vain he looks to the North for the traitorons encouragement that at the beginning lightened his erring steps, for that is all obscured by the indignant vote last given, and his appeals to cold and calculating Europe are more and more disregarded and slighted. Thus be it ever with a badeause. The 48th and 49th Wisconsia infantry regiments are organized as follows:

Forty-eighth, Coloacl, Uri Balcombo Pearsall, of Oconto county : Licut. Col. Henry Shoars, of Wankesha county; Major, Nathan Cole, of Shebbygan county; Adjutant, Alex, W. B. Cady, of Oshkosh; Quartermaster, Charles Smith, of Delavan. Forty-ninth, Colonel, Samuel Fellows, of Outagamia: Liout, Col. Edward Coleman, of Fond du Lac; Major, D. K. Noyes, of and population which peace and union cond. Adjutant Will C. Whitford or would develop in a few years, we might Sank; Adjutant, Wat. C. Whitford, of Rock; Quartermaster, Dennis A. Reed, of

Enlistments in the lately organized regiments are beginning to be brisk, as \$325 bounty from a town for a year's service, with the prospect of serving in a successful army near some picturesque sea coast, is, in such a time of dear living, very spirit that would rush to battle for the tempting. Besides this inducement, there | freedom of that island. Is the exciting one of being in the patriot ranks when the rebellion gives its last erow; for ample proof is daily given that its last ditch is nearly reached.

In a week or so you may expect to enjoy a musical treat in your city from a party of musicians from this city. They gave a concert here a night or two ago, which was largely attended and greatly appreciatod. The company consists of Messes. Smith and Chittendon, pinnists; Mr. Burke, violinist; Mr. Snow, flutist; and Mrs. Tappan, and Messrs\_Hawes, James, Folds and Thomas, vocalists. Mr. Smith is a son of Geo. B. Smith, Esq., of this city, and his natural musical talent is great and decided. He has been carefully instructed by Mr. Burke; and now plays on the piano with the facile and tasteful hard of a master, some of the keys of the instrument seeming to melt into liquid melody under his wonderful and perfect. touch. Messrs. James and Folds sing continent, a balance of power, or political tenor, and Messrs. Hawes and Thomas equilibrium, similar to that in Europe, bass, and their solos and quartettes are which would check the power and progress equally rich in full and cultivated melody.

The cream of a Wisconsin winter that we are now enjoying, increases the good of Mexico, which, united with a Canadian feeling occasioned by the successes of the mavy, would at all times effectually keep Union armies. The mild air of to-day only now and then distends the noble ensign of our rights and liberties that cheevingly waving over the State Capitol, beautifully contrasts with the deep blue sky above. Thus be it ever, is the heartfelt and inspiring wish of

The End at Hand--An English View. "Midwinter," says the London Daily News of Jan. 3d. " brings no pause in the shock and hurry of war in the American

campaign;" and the same paper adds: "If the North still remains able to keep up its armies to at least their present standard, while the South cannot renew of its members to further sacrifices, it is evident that the end is at length coming within sight. It must not, indeed, he posed of by any opponent less than a Natiwar with the Yankoos, poleon. Even Hood may raily a portion. The late war may go against these tacks of the federals which were not trace- ica, from the straits to the Isthmus, would fight as brave men do who are ashamed to Washington. The recognition of the in-yield, but who yet know that they fight in dependence of these Confederate States by

necessary to insure it. When these begin to doubt the end must be approaching.
"But the facts we have been reviewing but

not only show us the end of the war, but they open to use happier prospect of what will be after the war. The theory navaneed by some of our egtemporaries, that the North could never hold the South, oven after the Southern armies are beaten from the field, is plainly untenable. The fiery spirits will be gone, and those who were oo indifferent to fight will certainly not have energy to resist when the fight is over. t is to be kept in view that there is, after all, no difference of race, or speech, or law each and all united by treaties similar to to maintain a feeling of hostility. There that proposed for the United States and the preparing and using this medicine, in a scaled enves nothing to prevent northern settlers from amalgamating with southern residents. The negro question being settled, there will be nothing to maintain andig tinction between the two sections. En a future of progressive power and influence gaged in the same passuits, resorting to the which would eventually make the confedsame courts, clocking members to the same legislatures, there will be nothing in this power of the world. case resumbling those in which a nation is overrun and deprived of its rights by and alien power. Southerners will receiver their rights by submission, they will stand on a footing of perfect equality with the Two thousand organs smoked up by one victors.

We all know how rapidly, when the Highlanders of Scotland had been disarmed, they became among the most loyal of their fellow subjects. Yet their case was one in which there were fundamental distinctions between them and their left in the best of spirits and fuller of hope subjugators not to he found between federal and confederate. No doubt there will be an intervening period in which military law must prevail until perfect order is restored. Those who make the pretence of acting as guerrilles after the regular war is over an excuse for murderin • und plundering, must be repressed by the firm rules which in every country, and under the battles near Nashville and the pursuit every system of law, punish individual This will be an inevitable concomitant of the period of transition from war to legality. But when the foul dream of After this they were ordered to report here building up a slave empire is over there and have left for New York, where they will be nothing left to fight about; and a people who have nothing to maintain dissension about, and who are in the enjoy ment of common rights, common liberties sign of the speedy suppression of the rebel-lion is the spirit and eagerness with which put down those whose disorders will be only a common banc."

> ANOYEL BASIS FOR RE-ENION PRO-POSED.

The Monroe Doctrine Run Higi. [From the Richmond Enquirer, January 12] So far as this war is concurred, the people of the confederate, states have no reason whatever to help Maximillian, nor give to France or England any sympathy or support. Noither France, nor Mexico nor England. has extended to the confedcracy any encouragement, and if our cause fail, after every manly effort that we can make in its behalf, then pride as well as interest would dictate, that if we are to be conquered, we should belong to a great and powerful nation. That we should endeavor to extend the power and influence of that nation from pole to pole and uniting every country of America by alliance citier constitutionally or by treaty, seek to make this continent a unit against the world. In the grandeur and power of have put into the field during this war, united under one flag, with a navy such as the united resources of the two nations could put upon the ocean, with the wealth and at least a hiding place by our shame and perhaps some consolation that America would become the colossal nower of the world. Maximillian could not reign in Mexico, or England hold Canada six months after our conquest. Ireland would call to her rescue the thousands of her sons now awaiting an opportunity, and the navy of the United States would give

The undisguised hatred of the people of the United States for England would render a war with that power the most popniar party cry that could be raised. cotton that would be saved from the destruction of the war would be held in the Inited States; and the little that would be cultivated by the new and anorganized free negro labor would find consumption at home, and thus would be precipitated a commercial convulsion on British inances by prolonging the cotton famine, and that op, at the beginning of the war. France driven from Mexico, would find her people impoverished by Imperial taxation, without any prospect for increase of trade or commerce; saddled with the cost of imperialism, her people would begin to discover that the Napoleon dynasty was not the means either of glory or of happiness. If the confederate States are ever conquer ed, it is highly probable that the Monroe doctrine, as the land-grabbing propensity of the Anglo-Saxon has been called in the United States, would become the most im portant and popular principle in American policy. On the other hand, if we are successful, there immediately rises on this of the United States, restore commerce to its normal condition, oppose to the navy of that country the navy of these States and the Ynakees within the bounds of proprie ty, and from disturbing the peace of the world.

These plain facts make no impression upon the governments of either France, Spain or Mexico. Those governments are indifferent to our cause, and to the conse-quence of its ruin. We have offered commercial advantages, and sought to impress these facts upon the governments of Western Europe by every suggestion, but all has been in vain. Neither France nor England is entirely satisfied with the enenticordilate, neither will trust to the faith of the other. France fears that England may prove false and unite with the United States, and sweep the French pavy from the seas, while we have no navy to bring to her assistance. England fears that France has designs on California and the East India commerce. Thus two great its regular forces, nor rouse the patriotian i powers with no faith or trust in each other's piedges, neutralize each other's inflaence, and for dread of treachery, permit us to fight the fight out, nothwithstanding looked for suddenly. A great and tried their own interests are involved in our army like Loo's cannot be suddenly dist cause as directly as they would be in open

that have produced the present war. The foreign policy of both nations should then be the Monroe doctrine, applied to the whole continent of North America, and adjacant islands, Canada and Mexico, Cuba and the Sandwich Islands, Control America, and the Russian possessions; all from Berlings Straits to Darien's Isthmus should be made American in interest and republican in form of government, and Confederate States. Instead of wasting the lives of the citizens and consuming the resources of the two countries in a war of mutual ruin, such an alliance would open oracles of North America the dominant

Two Thousand a Year.

Not Dollars, dear reader. Oh, No! Ooly Cigars. Think of it for a moment. porson, in a single year. The cost of this little luxury was stated at Two Hundred Dollars, by the young man who quietly, gave the order to a dealer, in our hearing. It was in the street cars, where, by the way, we eccasionally find a topic to write upon. "Yes," said he, "you had best send me two thousand, -they will all be gone before the next year is out."

Naturally, we scanned the speaker closely ... He was under size, of course, -tobacco, probably, had stunted his growth; skin was sallow, and face pimpled, as it ought to be, with such indulgence; figure slight, -never had a chance for development with such a drain upon it; general habit, very nervous -a propes sequence of toneed poisoning; health evidently impaired in a large degree—the tell-tale features urnishing a very straight story. Yes, moked almost to death, with two thousand cigars a year. What a record! Read it in detail:

TWO HUNDRED [DOLLARS WASTED! A small amount, perhaps, in the eyes of ome men, but sufficient to provide comfortable quarters for, at least, one poor family during a year; sufficient to fornish two thousand loaves of bread, at bakers' prices, to feed the hungry; sufficient to sparehase, a dozen tons of hard coal, wherewith to warm the suffering ones; sufficient, in short, to do a vest amount of good, in whatever direction applied. But this is the smallest item. Here is another.

The New Wark Tribune says, "The reason' why Drake's Plantation Ditters are so universally used and have such an immense sule, is that they are always made up to the original standard, of highly invigoral ing material and of pure quality, although the prices have so targely advanced," &c.

The Tribune just hits the pall on the head. The Plantation Bitters are not only made of pure insteriol, but the people are told what it is. The Recipe is published around each builte, and the bottles are not reduced in size. At least twenty limitations and counterfelts have sprung up. They impose about the propla once and that's the last of them.

The Plantation Litters are now used in all the Government Hospitals, are recommended by the best physloines, and are warranted to produce an immediate beneficial effect. Facts are stubbern things. u \* & \* I owe much to you, for I verily believe the Plantation littlers have saved my life. REV. W. H. WAGGONER. Mr. Wid, Now York.

(For the Gazette.) I suppose my young readers would like to know who Vesta is. Well, to be frank with you, I will state that Vesta is a dwarf and the oldest of the asteroid family, who, like Melchizedec, is not known to have beginning of days or end of life. 1, Vesta, was first introduced to popular society by one M. Olbers at Bremen, March 29th, 1807. My better known sister, Earth, has grown to 28,000 times my size. Mars, 4,000 times as large, on one side of me, is off on a raid in his war chariot, at the rate of 15,000 miles an hour, while Jupiter, on the other side of me, and 35,840,000 times as large as I, is a little more moderate. Though so very small, I have traveled 1,350,000,000 miles during the last 58 years and crossed the tracks of Ceres, Pallas and June 32 times, yet am too much of a coward to interfere with any body Eleven like myself could be strung upon the Atlantic cable! What a fine string of beads for Horoules! I could roll twice over in trundling down the Mississippi. Boing 225,000,000 miles from the great illuminator, of course you wont expect me to reflect much light. Now if you will not cry "Egotist," or accuse me of fickle-

ness, I will start at a tangent on another subject.

At this season of the year the weather is usually very cold, and the price for fuel is exorbitant. It naturally suggests a warmer location. It is some times the case that poor people have to retire to their cellars to keep from freezing. Now if they should continue to go down until they passed beyond the temperature affected by

> BADGER STATE GRAIN DRILL AND BROAD Cast Sower, Combined .- The Badger State Grain Drill has now been made at Janesville for four years. It is now made with all the improvements which years of experience have suggested.

The Badger State for 1865 can be changed into a Broad Cast-Sower and Cultivator in thirty minutes time.

It is now so arranged that by raising the teeth, the feed is shut off, and by letting the teeth down the feed is put on. Again, the Badger State is now and always has been the lightest draft of any drill in the market.

The Badger State is warranted to be as good a drill as any yet made. It is warranted to be as good a broad cast sower as anv in market.

The Badger State will plant corn or beans in hills or in drills. It will sow grass seed, clover and flaz at the same time that it is sowing other grain. It sows grass seed either behind or hefore the teeth.

The prices for the Badger State for 1865 will be-9 tooth, \$85; 10 do., \$90; 11 do., 95; 12 do., 100. Five dollars added for Grass Seeder; \$2 added for Broad, Caster.

Those wishing to buy a Drill or Broad Caster, will please hear in mind that the Budger State is a good Drill, and also a good Broad Caster, in addition to being a good Corn Planter.

The Budger State is the only combined Drill and Broad Caster in the market. Piease call and examine the Drill, and

#### OFFICIAL PAPER OF THE CITY.

For local matter, city notices, railroad directory, arrival and departure of mails, and market reports, see fourth page.

#### The News.

The dispatches of Saturday night and this forenoon, relating to peace, are dissolved into the stuff that dreams are made of by the afternoon telegrams, which state that all probabilities of such negotiations are utterly groundless. As we stated a few days since, the near approach of peace is indicated only by the manifest weakness and exhausted condition of the so called Confederacy.

Peace will never come, and, we seriously believe, it is better that it should not come, so long as the rebel army under Lee holds Grant at arm's end. The fight must go on until the agis of our national sovereignty waves in triumph over Richmond as it does to-day over Savaonab, and until South Carolina humbles berself at the feet of the victorious Sherman.

#### Edward Everett and the French Mission.

Fifteen days before his death, Edward Everett wrote a letter to Mr. Bonner of the Ledger, in which, after mentioning some business matters, he said: "With respect to the French mission, it has been occasionally mentioned to me, never by me, except at this moment, in writing to you. Unless our ministers now abroad are recalled, it is not likely that Massachusetts, which has now three full ministers, will be allowed to have shother other Massachusetts men who will do, what I shall not, seek the place, by themdoubtful whether I should accept it, if offer came. I have been ten years in Eq. rope. I am in my 71st year. I don't ital; to have a secretary and an allowance urged upon me, you can judge whether I things now, but when I am gone you can affirm them on good authority. In the meantime, my moderation is not likely on this occasion, to be put to the test; for there is not the least probability that the office will be offered me."

THE first decision of Chief Justice Chase, in the Supreme Court of the United States, was that West Virginia is legally a State. The decision was given on the question of when calling the docket.

THE United States Senate, by a vote of 31 to 8, adopted the Resolution to terminate the Canadian Reciprocity Treaty. As the House had previously acted, the thing will be done; and nine-tenths of our people will rejoice thereat.

On accepting the nomination for Guyernor of Tennessee, Parson Brownlow stoke as follows:

"Gentlexen-I settle the controversy by assuring you that I will accept. [Applause.] I cannot be expected to do any thing more, and I certainly ought to do no less than tender to you, as a Convention, my sincere and unfeigned thanks for the honor and distinction you have conferred upon me. I will not speak to you at length, now, gentlemen, but what I lack in speak-ing, if the people should ratify the nomination made by you. I will try to make up in deeds and acts, and, God being my help, if you will send up a Legislature to reorganize the militia, and pass other necessary business, I will put and end to this infernal guerrilla fighting in the State, in East. Middle and West Tennessee, if we have to shoot every man concerned in such business." [Loud and long continued applause, and during which the Parson re-

### [From the Spanish of Iglesias.] SATIRICAL LYRIC.

BY T. ZEMPLETON TIEBS. [For the Gazette.]

See you doctor graduated,
With his tassels and his gloves,
Straight from Salamanus's groves,
All his learning appobated;
Still though titled and eleted,
With his tassels, gloves and gown,
Nothing but a titled clew

See you Lord with couch and page
Holding up a lofty head,
Strutting with a regal tread...
Just attained the legal age;
Still with all his equipage,
With his lofty amile or frewn...
Nothing but a jeweled clown.

See yon hero, boasting, showing Wound-marks over all his skin From the battles he was in, When in Flanders blood was flowing, Spite of sword of wounds and blowing, Squadrons, honors and senown, Nothing but a tinseled clown.

See you grave and reverend friar, Straight and sober as a steppie So by will of all the month Straight and sober as a steple;
So by will of all the people,
Ile is chosen to be Prior;
Still though serious as a spire,
Spite of corpulence and gown —
Nothing but a sober clean.

See y is judge with savage features.
On his bonch sedately seated,
Whence is condemnation meted.
To some poor offending creatures,
Still with rod and legal features
And the atern judgels tone,
And the stern judgels tone, See, at last, this satire strain.
Haughty, bold as any tyre,
Vielding nothing to Quavedo.
Nor to any man in Spain.
Lyric with a samy volo,
Sceptre-quilland paper-crown
Thou, of all the greatest clown.

#### FROM THE SOUTH.

New York, January 28,-Governor Hahn, of La., had issued a proclamation, who tossed gold up last night still controlsee, and Maryland. General Herron arrived in New Orleans

on the 19th. Late advices from Texas have been re ceived. It was reported that the commandant at Matamoras had permitted rebel

gangs to cross from Bowmansville and concript Union refugees. Several lady refugees from Galveston had arrived in New Orleans. They report suffering for fuel, and partitions and out-

Captain Scott, who spoke very despondingly, said he and many others had determined to join a corps which Maximilian is forming.
CHARLESTON, Jan. 24.—The enemy have made no advance movement. Scouts report the railroad between Saltchatchic bridge and Pocataligo has been destroyed, the ties burnt and the iron taken away.

The enemies pickets extend a short distance this side of Pocataligo.

The following is from the Richmond Sentinel of the 26th: Francis P. Blair. Esq., we understand, left Richmond yesterday for Washington. Mr. Singleton alterday so left by the same boat. Whether this mysterious passing to and fro will result

in good or evil, time will disclose. for invoking favor and guidance of the

and prayer.
New York, Jan. 29.—A Savannah corrich but now poor, to white and black, un-

to Branchville to hold that place against Sherman. Several cannon from the out-Branchville. It is reported by deserters

that Charleston will be evacuated. Movements by the rebels indicate they

and several gunboats have joined Dahl-gren's fleet off Charleston.

A Savannah letter of the 19th, to the divisions of the corps were at Hardeeville, when last heard from.

New York, Jan. 29 .- Officers who are portant and highly favorable news may soon be expected from South Carolina. Washington, Jan. 29 .- The Richmond

Sentinel of the 27th has the following : The iron clads are again at their old anline. The Drury grounded under the enemies' batteries when the crew were removed. About ten minutes after she was blown up by a shell thrown into the mag-azine. The Richmond and Virginia both grounded. The Fredericksbury passed over the obstructions drawing 18 inches

less water than the others. The Virginia was struck by a 100 pound shell, which loosened some of her bolts, but all the injury she received was repaired in a few hours. The Virginia flag ship was commanded by Lieut. Lunnington, the Richmond by Commander Bell, late the first Lieut, of the Alabama. The Frederickshirig by Lieutenant Shepard, Commander Mitchell's flag officer, was in command of the squadron.

We are pleased to see that measures are being taken in North Carolina, South Carolina and Georgia, to burn all cotton that is in danger of falling into the enemy's hands. How much better would it have been to have destroyed the large quantity stored in Savannah, and thus have prevented its falling into the hands of Sherman.

The Yankees, says the Wilmington Jour-nal of the 23d, appear to have left their base in front of Major Gen. Hoke's forces yesterday, and concentrated at Fort Fisher. Their fleet has also disappeared.

They, of course, hold Fisher. Whether they have re-embarked their main body we are unable to say. They occupy Smithville, it having been evacuated by our troops. There was considerable skir mishing about Fort Anderson on Saturday and Sunday morning. It is supposed the enemy are anxious to silence Anderson in order to open a way up the river for their boats. All quiet below last evening at 6 o'clock.

The Richmond Sentinel of January 28th states that Gen. Breckenridge has been appointed Secretary of War.

The Richmond Examiner published the following address of Gen. Hood to his troops: HEADQUARTERS AREF OF TENNESSEE, Tupelo, Miss., January 23d .- Soldiers, at

my request I have this day been relieved from command of this army. In taking the army of northern Virginia. Gen. #### FROM NEW YORK.

New York, Jan. 28.-Robert Cobb Kennedy, a near relation of Howell Cobb, is on trial by Court Martial here privately charged with being one of the hetel incen-diaries. He is now being tried on only one of the charges against him, that of he-

ing a rebel spy.

The Post's Washington special says a fire occured in Wardport this morning but was soon extinguished with little damage. Seven million percussions shipped as ordinary freight from this port have been seized on suspicion that they were interd-

New York, January 30 .- The Herald's St. Louis correspondent gives the outlines of a reported robel operation west of the Mississippi of an extraordinary character. It is to the effect that Gen. Kirby Smith, commanding the rebel trans-Mississippi Department including all the rebel territory and troops west of the Mississippi river houses were being used for the purpose. In the land toops were of the landstrope river has been for some time negotiating for a Galveston for a couple of weeks. In an interview under a flag of truce, the rebel captain Scott who spoke very degranding. have some difficulty in effecting it as the rebel troops of that region always a lawless semi-disorganized set of wild characters have become additionally demoralized since the death of old Sterling Price their favorite chief, and may resist this whole

sale military colonization.

The Herald publishes the rebel army roster, which it says it obtained from the most authentic source. The figures accompanying the organization show that the full strength of the rebels is only 163,-950 men of all arms, this is their fullest strength. The forces are scattered from the James river to the Rod river, and from the Atlantic coast to the Indian Territories. President Davis has issued a proclamamation appointing Friday, 10th day of is the army of Northern Virginia. This is the only organization which the enemy has deserving the name, and the only army which we now have to overcome. New York, Jan. 30. The Tribune has a

leading article on a recognition intrigue. It says it has obtained a clue to European omplot wherefrom the slave-holding rebelare comforting themselves with hopes of powerful and speedy aid to their sinking cause. Its outline is, at the early stage of the rebellion, Jeff. Davis sent Roman Catholic Bishop Lynch, of South Carolina, to Europe to search for sympathizers and al lies, but to make Rome the focus of opera-tions. It was not difficult for him to convince master spirits of European reaction and absolutism that the slave holder's rebellion was identical in spirit with their cause, and enlist their sympathics; but Bishop Lynch went further and assured magnates of the Catholic Church that its the hemisphere would be assured by the triumph of the rebels. In deference to these representations, a secret league of the Roman Catholic powers of France, Spain and Austria, under the guidance of the Pope, has been formed, pledged to reathe Confederacy after the 4th of ognize next March, on the ground that it did not take part in the presidential election.

The Tribune also learns that the rebels anticipate a fresh assault on Richmond, and in case they caunot hold it they will burn it to the ground, to show christen-dom that they had rather be exterminated than subjugated.

New York, Jan. 30 .- The Times' Savannah correspondent of the 19th says the last of Sherman's array bases Savannah to morrow. The 1st and 3d divisions of the 20th corps were at Pardeeville, S. C. when last heard from.

The Herald's Washington dispatch says that the Navy Department received a communication furnishing intelligence that a telegraph wire was discovered after exploring Fort Fisher leading across Cape Fear River and about two miles into the rebel lines. There is but little doubt that the magazine was expleded by rebels.
All peace negotiations with Richmond are now very thoroughly exploded. Though negotiations are expected from other quarters, perhaps by proclamation of Governors of Georgia and North Carolina. It is stated that it was a part of the object of Stanton's visit to Savannah to advise with Sherman, if the rebels should propose terms of peace, to hold himself in readiness on behalf of his government to accept. It is also stated the passport order has been reseinded, so far as applies to Canada, but will be continued no regards Yora Scotia.

Washington, January 30.-Horse-Johnson of Pa., moved that 33 or 30 per cent, respectively be added to the salaries of Congressmen and employees in civil service. Referred to Committee on Ways and Meane.

#### New York, January 30 .- The Herald's Washington special says the mission of Blair was not, as has been generally supposed, an entire failure, but it resulted in fully disclosing that many of the rebel chiefs are desirous of peace and are willing to submit to much more reasonable terms than their newspaper organs would lead us to suppose, but that all are so jealous and watchful of each other that no

and relentless faction. Another correspondent says that we need not be surprised to soon see peace in proclamations of the Governors of Georgia

and North Carolina. The Tribune says the only new development as to the Blair mission is reported by two members of the House, who direct with the returned envoy. Although they were democratic, they state that Mr. Blair said Jeff Davis entreated him to effect the passage of the constitutional amendment abolishing slavery; that he cenfessed that the war had uprooted and destroyed slavery, that it had induced disunion, and that the hope of being able yet to save slavery and re-enthrone it was the only obstude to peace and the restoration of the Union. This was told on the floor of the House on Saturday. Bets were immediately offered by peace democrats that Mr. Blair had never uttered a word of what was imputed to him.

Washington, January 28 .- The result of Mr. Blair's volunteer visits to Richmond s this: That Jefferson Davis is willing important transfer of his services he will to waive formalities and send to Washing ton or receive from them commissioners to treat for peace upon the basis of separa-tion. The President of the United States, on the other hand, is willing to give a licaring to any person of influence who may come from the States in rebellion, with or without Davis' authority, to treat for peace on the basis of submission to the Urion. Of the above facts there is no doubt.

OFFICE OF THE PHENIX MUConn., Jan. 24, 1865.

HENRY ROORS, Esq., DEAR SIR.—At a meeting of the Directors of this Company held at this Office this day, the following vote was ananimously passed:

"That a dividend of 50 per cent. of Annual premiums be declared to holders of poli les issued by the Phoenix Minual Life Jinsurance Company in 1861, and that said dividend be paid on next or fourth annual scenewals of said policies."

A dividend of 50 per cent. is seldom declared by Mutual Companics, and still more seldom we believe at their first making of dividends; but our prospecity has been so marked, more particularly in the year just ended, that the Directors of this Company felt themselves fully justified in passing the above vote.

It is the wish of the Directors that our mombers should feel that they are as liberally treat d as they could be by any other safe Company, and they kept that on the recurrence of another new pent, they will find themselves in a position to warrant their voting a dividend equally large. #### Mad' son Correspondence. From our Epocial Correspondent.

Madmon, Jan. 28, 1865. Editors Gazette:-The vacancy in the Ninth Circuit, caused by the resignation of Judge Orton, has been filled by the appointment of Hon. Alvah Stewart, of Portage. Judging from the attendance of prominent lawyers and their friends from too indifferent to fight will certainly not have energy to resist when the light is over.

It is to be kept in view that there is, after cuit, there was no lack of candidates, and for the past day or two it has not been uncommon to see some of these passing in settling to prevent northern settlers the labby before the Gavernor's door like anxious and patient sentinels awaiting the call to better and more certain rations. But it appears that the sound qualities ef Judge Stewart and the number and weight of his friends, have secured for him the coveted office, which from all accounts, has been given to a lawyer able and well qualified to fill it.

Col. Malloy and some of his officers left here on the morning of the 27th inst, to rejoin the 17th regiment either at Savannah or under the works of Charleston. They escore a number of recruits and men ade and part of the time two brigades. quickest route. Perhaps the most hopeful sign of the speedy suppression of the rebeltion is the spirit and eagerness with which our veteran soldiers and officers now depart for the buttle fields of the country. ANOYEL FASIS FOR RE-ENION PRO-Their cause and devotion has been endorsed by a vast majority of their intelligent and independent fellow-citizens and cheered by this wholesome stimulus they go to. find a staggering enemy weakened on every side by defeat, desertion and division. In vain he looks to the North for the traitorous encouragement that at the beginning lightened his erring steps, for that is all obscured by the indignant vote last given, and his appeals to cold and calculating Europe are more and more disregarded and slighted. Thus be it ever with a badeause. The 48th and 49th Wisconsin infantry

regiments are organized as follows: Forty-eightle, Colonel, Uri Balcombe Pearsall, of Ocento county: Lieut, Col. Henry Shears, of Wankesha county; Major, Nathan Cole, of Sheboygan county; Adjutant, Alex. W. B. Cady, of Oshkosh; Quartermaster, Charles Smith, of Delayen. Forty-ninth, Colonel, Samuel Fellows, of

Enlistments in the lately organized regiments are beginning to be brisk, as \$325 bounty from a town for a year's service, with the prospect of serving in a successful army near some picturesque sea-coast, tempting. Besides this inducement, there freedom of that island. is the exciting one of being in the patriot ranks when the robellion gives its last crow; for ample proof is daily given that ite last ditch is nearly reached.

In a week or so you may expect to enjoy a musical treat in your city from a party was largely attended and greatly appreciated. The company consists of Messrs. Smith and Chittenden, pinnists; Mr. Burke, violinist; Mr. Snow, flutist; and Mrs. Tappan, and Messrs, Hawes, James. Folds and Thomas, vocalists. Mr. Smith is a son of Geo. B. Smith, Esq., of this city, and his natural musical talent is the means either of glory or of happiness. great and decided. He has been carefully If the confederate States are ever conquer on the piano with the facile and tasteful hand of a master, some of the keys of the instrument sceming to melt into liquid melody under his wonderful and perfect touch. Messrs. James and Folds sing tenor, and Messrs. Hawes and Thomas bass, and their solos and quarteties are equally rich in full and cultivated melody.

The cream of a Wisconsin winter that we are now enjoying, increases the good feeling occasioned by the successes of the Union armies. The mild air of to-day only now and then distends the noble ensign of our rights and liberties that cheeringly waving over the State Capital, beautifully contrasts with the deep blue sky above. Thus be it ever, is the heartfelt and inspiring wish of

"But the facts we have been reviewing not only show us the end of the war, but they open to usa happier prospect of what will be after the war. The theory advanced by some of our cotemporaries, that the North could never hold the South, even after the Southern armics are beaten from the field, is plainly untenable. The flery spirits will be gone, and those who were all, no difference of race, or speech, or law to maintain a feeling of hostility. There from amalgamating with southern residents. POSED.

The Monroe Destrine Itau Riot.

From the Hichmond Enquirer, January 197 So far as this war is concerned, the people of the confederate states have no reason whatever to help Maximillian, nor give to Franco or England any sympathy or support. Neither France, nor Mexico. nor England, has extended to the confederney any encouragement, and if our cause wil, after every manly effort that we can make in its behalf, then pride as well as interest would dictate, that if we are to be conquered, we should belong to a great and powerful nation. That we should endeavor to extend the power and influence of that nation from pole to pole and uniting every country of America by alliance citier constitutionally or by treaty, seek to make this continent a unit against the world. In the grandeur and power of such a nation, with armics such as the United States and the confederate states have put into the field during this war, united under one flag, with a navy such as the united resources of the two nations could put upon the ocean, with the wealth and population which peace and union would develop in a few years, we might find at least a hiding place for our shame and perhaps some consolution that America would become the colossal power of the world. Maximillian could not reign in Mexico, or England hold Canada six months after our couquest. Ireland would call to her resear the thousands of her sons now awaiting an opportunity, and the navy of the United States would give is, in such a time of dear living, very spirit that would rush to battle for the

The undisguised harred of the people of the United States for England would render a war with that power the most popular party cry that could be raised. The atten that would be saved from the destruction of the war would be held in the United States; and the little that would of musicians from this city. They gave a free negro labor would find consumption concert here a night or two ago, which at home, and thus would be precipitated a commercial convulsion on British finances. by prolonging the cotton famine, and that too, at the beginning of the war. France driven from Mexico, would find her people impoverished by Imperial taxation, without any prospect for increase of trade or commerce; saddled with the cost of imperialism, her people would begin to dis-cover that the Napoleon dynasty was not instructed by Mr. Burke: and now plays ed, it is highly probable that the Monroe doctrine, as the land-grabbing propensity of the Anglo-Saxon has been called in the United States, would become the most important and popular principle in American policy. On the other hand, if we are successful, there immediately rises on this continent, a balance of power, or political equilibrium, similar to that in Europe, which would cheek the power and progress of the United States, restore commerce to ts normal condition, oppose to the navy of that country the navy of these States and of Mexico, which, united with a Canadian navy, would at all times effectually keep the Yankees within the bounds of propriety, and from disturbing the peace of the

These plain facts make no impression upon the governments of either France, Spain or Mexico. Those governments are indifferent to our cause, and to the consequence of its ruin. We have offered commercial advantages, and sought to impress these facts upon the governments of Western Europe by every suggestion, but all has been in vain. Neither France nor England is entirely satisfied with the entente cordilate, neither will trust to the faith of the other. France fears that Eng-Notes of Jan. 3d. The foreign policy of both nations should then he the Monroe doctrine, applied to the whole continent of North America, and adjacant islands, Canada and Mexico Cuba and the Sandwich Islands, Central America, and the Russian possessions; all from Berhings Straits to Darien's Isthmus should be made American in interest and republican in form of government, and each and all united by treaties similar to that proposed for the United States and the Confederate States. Instead of wasting the lives of the cirizens and consuming the resources of the two countries in a war of mutual ruin, such an alliance would open a future of progressive power and influence which would eventually make the confedaracies of North America the dominant

#### Two Thousand a Year.

Not Dollars, dear reader. Oh, No! Only Cigar. Think of it for a moment. Two thousand eights smoked up by one person, in a single year. The cost of this little luxury was stated at Two Hundred Dollars, by the young man who quietly gave the order to a dealer, in our hearing. It was in the street cars, where, by the way, we occasionally find a topic to write upon. "Yes," said he, "you had hest send me two thousand,—they will all be gone before the next year is out."

Naturally, we scanned the speaker closely. . He was under size, of course,-tobacco, probably, had stunted his growth; skin was sallow, and face pimpled, as it ought to be, with such indulgence; figure slight, -never had a chance for development with such a drain upon it : general habit, very nervous -a propes sequence of to-bace poisoning; health evidently impaired in a large degree-the tell-tale features furnishing a very straight story. Yes, smoked almost to death, with two thousand eigars a year. What a record ! Read it in detail:

TWO HUNDRED BOLLARS WASTED! A small amount, perhaps, in the eyes of ome men, but sufficient to provide comfortable quarters for, at least, one poor family during a year; sufficient to furnish two thousand loaves of bread, at bakers' prices, to feed the langry; sufficient to purchase a dozen tons of hard coal, wherewith to warm the suffering ones; sufficient, in short, to do a vast amount of good, in whatever direction applied. But this is the smallest item. Here is anothen.

CAPACITY FOR USEFULINGSS DESTROYED! Not wholly, we concede, but to so great degree that the man loses his proudly superior position, while indulging it a habit which cannot by any possibility afford due return for the necessary sacrifice. Thus follows, sooner or later,

LOSS OF HEALTH! been which very few sufficiently prize, but which is wantonly wasted, cast aside, in a mad devetion to a useless and pernicious habit. Many who read this page may think us a little fauntical on this point. If it were a sin affecting only the person who commits it, we might utter our warning, and then keep silent, but our senses are offended and disgusted with the intrusive habit, and they who indulge in it are wronging us, as well as themselves. Worse than all, tobacco users are.

POISONING FUTURE GENERATION ! directly and indirectly. Like rum-drinkers, even to children, and children's children, doth the effects of their evil habits extend, perpetuating strong tendencies to vice, and cursing the race for all time! We cannot be sileut in the face of such an outrage upon decency and good morals. It were better if the poor victims could poison themselves to death at once, for lewer would then be sacrificed. Oh! that with each carl of smoke from the lips of the smoker, the tobacco fiend might be manifest, and shrick the triumph of sin, in the very face of the victim. It is harely possible this, at least, might call him to his senses.

[For the Gazette.] I suppose my young readers would like to know who Vesta is. Well, to be frank with you. I will state that Vesta is a dwarf and the oldest of the asteroid family, who, like Melchizedec, is not known to have beginning of days or end of life. I, Vesta, was first introduced to popular society by one M. Olbers at Bremen, March 29th, 1807. My better known sister, Earth, has grown to 28,000 times my size. Mars, 4,000 times as large, on one side of me, is off on a raid in his war charlot, at the rate of 15,000 miles an hour, while Jupiter, on the other side of me, and 35,840,000 times as large as I, is a little more moderate. Though so very small, I have traveled 1,350,000,000 miles during the last 58 years and crossed the tracks of Ceres, Palhas and Juno 32 times, yet am too much of a coward to interfere with any body Eleven like myself could be strung upon the Atlantic cable! What a fine string of beads for Hercules! I could roll twice over in trundling down the Mississippi. Boing 225,000,000 miles from the great illuminator, of course you wont expect me to reflect much light. Now if you will not ery "Egotist," or accuse me of fickle-

is exorbitant. It naturally suggests a warmer location. It is some times the

the heat and cold of the atmosphere, they would find the average increase of heat to be one degree for every 544 feet nearly. As water boils at 212 degrees, we shall find all the water boiling at a depth of 9,429 feet below the surface. So the water from hot springs must come from a depth of nearly three miles. Rock melts at a temperature of 7000 degrees, which carries us down 381,555 feet or 116 miles to where it becomes a molton mass of burning lava. Did you ever think volcanoes might be vents to natures great fire-furnaces 116 miles below your feet? A little more figuring will show this cauldron of boiling rock to be 7,000 miles in diameter. Some very ignorant people a great many years ago used to think the wicked when they died, were imprisoned in the middle of the earth, but this suggests too much warmth.

Our heavenly Father has made this wonderful arrangement exactly right.

"Not worlds on worlds in Phalanx deep, No-d we to prove that God is here; The dalsy fresh from winter's sleep, Tells of His handin lines as clear."

Vesta. Birds-nest Cottage Harmony, Jan. 29.

BADGER STATE GRAIN DRILL AND BROAD Cast Sower, Combined .- The Badger State Grain Drill has now been made at Janesville for four years. It is now made with all the improvements which years of experience have suggested.

The Badger State for 1865 can be changed into a Broad Cast Sower and Cultivator in thirty minutes time.

It is now so arranged that by raising the teeth, the feed is shut off, and by letting the teeth down the feed is put on. Again, the Badger State is now and always has been the lightest draft of any drill in the market.

The Badger State is warranted to be as good a drill as any yet made. It is warranted to be as good a broad cast sower as any in market.

The Badger State will plant corn or beans in hills or in drills. It will sow grass seed, clover and flax at the same time that it is sowing other grain. It sows grass seed either behind or before the teeth.

The prices for the Badger State for 1865 will be-9 tooth, \$\$5; 10 do., \$90; 11 do., 95; 12 do., 160. Five dollars added for Grass Seeder: \$2 added for Broad, Caster. Those wishing to buy a Drill or Broad Caster, will please hear in mind that the Budger State is a good Drill, and also a good Broad Caster, in addition to being a good Corn Planter.

The Budger State is the only combined Drill and Broad Caster in the market. Piease call and examine the Drill, and get a Circular. R. J. RICHARDSON.
